

SureMed by Omnicell weekly pill pack card range

Created by pharmacists for pharmacists

Like you, we're committed to medication adherence, because we understand the health and financial benefits.

Our weekly pill packs are available in both a card and clear range for pharmacies to use in the community. Each personal pack will help your patients take the right pills and right dose at the right time. Each blister can hold multiple medications to be taken at a set time each day. The standard weekly pill packs are split into four sections; morning, mid-day, tea-time and bed-time; for each day, seven days a week.

Our card range of pressure-seal weekly pill packs are delivered complete with cards, blisters and a filling template in a box of 250*. Our specially designed seals, which are glued on both sides of the card, ensure our packs are tamper resistant and free from moisture.

Our range has been created by pharmacists, for pharmacists. We understand your business and we take pride in offering an individual service with a personal touch. Like all Omnicell products, the weekly pill pack is designed to support you in providing a valuable service to your customers and to support them in taking the correct medication.

SureMed by Omnicell weekly pill pack clear range

The UK's first choice for multi-dose pill packs

Like you, we're committed to medication adherence, because we understand the health and financial benefits.

Our weekly pill packs are available in both a card and clear range for pharmacies to use in the community. Each personal pack will help your patients take the right pills and right dose at the right time.

Our clear range is a transparent tray with seal ensuring medication is clearly visible without breaking the seal and medication times are clearly stated.

Available with a plastic or card lid, our clear range is light, compact and easy to use with a quality seal that is not affected by moisture. Medication details can be fixed to the pill packs with space for descriptions which provides additional identification making the packs even safer. All medication times and days of the week are also displayed on the pack in large print. Our standard pack contains 250 trays, seals and card lids or insert cards. Both the card lid and the plastic trays are recyclable providing obvious environmental benefits.

Our multi-med pill packs are used by 80% of pharmacists in the UK, making SureMed by Omnicell the number one choice. Like all Omnicell products, the weekly pill pack clear is designed to support you in providing a valuable service to your customers and to support them in taking the correct medication.
