

Pharmaself24

Provide 24/7 prescription collection for your local community.

Convenient for patients, good for business. Allowing your patients to quickly pick up their prescriptions whenever its most convenient for them, without the need to queue. It's the simple and secure way to make your dispensing process more efficient, whilst giving your patients the best possible experience.

Benefits for your business

- Free up staff time and divert resources to more valuable tasks.
- Attract new patients and maintain the loyalty of existing ones.
- An adaptable solution to safeguard and drive revenue and growth.

Benefits for your patients

- Enhance the patient experience through added convenience.
- Enables your patients to collect their medication at any time.
- Better access to one-to-one healthcare advice and pharmacy care.

Pharmaself24 adds a further pair of hands to your pharmacy team.

Without Pharmaself

10,000 - 15,000 items dispensed per month.

500-800 bags needing to be stored on a shelf to be distributed to patient on their arrival during opening hours.

Staff need to spend 3-4 minutes handing out each bag, for 500-800 individual prescriptions every month.

With Pharmaself

500-800 people a week who could collect from the PS24.

Bags automatically loaded into pharmaself, reducing the need for storage.

Removes 500-800 times staff need to spend handing out a bag. Saving up to 53 hours per month in staff time alone.

PS24 Compact

- Up to 1m²
- Holds 50 to 100 bags depending on configuration
- For pharmacies dispensing up to 6,000 items per month

PS24 Multi

- Up to 2m²
- Holds up to 178 bags
- For pharmacies dispensing over 6,000 items per month

“It’s like an extra team member in a way. It’s freed up time to a greater extent than I thought it would, which has been particularly helpful recently with unforeseen staff absences.”

Ali Sparkes, The Health Dispensary
